

PROVECTUS BIOFUELS
Cleanest fuels on earth

APRIL 22ND, 2023

FOR IMMEDIATE RELEASE:

Provectus Biofuels Inc. announces appointment of Engineering Project Manager, Dr. Larisch

Prince George, BC – April 22nd, 2023: Provectus Biofuels, Inc. (“Provectus”) is pleased to announce the appointment of Dr. Belinda Larisch, B.Eng., M.Eng., PhD as our Engineering Project Manager, and the newest member to join our team.

Dr. Larisch is a Chemical engineer, who has two decades of experience in the renewable energy industry with experience in gasification, and project management. She has traveled extensively to Europe evaluating the best gasification technologies and has personally been an operator of a gasification system at UNBC. Dr. Larisch is well regarded by her peers in the University and Prince George community.

Jon Jaque, President, said, “Ms. Larisch has broad experience in the green energy space such as air separation and carbon emissions, and has worked with world class green energy companies. We are blessed to find someone with Ms. Larisch’s knowledge and experience right here in Prince George.”

ABOUT THE COMPANY:

Provectus Biofuels Inc. is a clean energy technology company incorporated in the Province of British Columbia. Our main focus is the development of renewable low-carbon gasoline (RLCG) derived from green hydrogen from electrolysis, gray hydrogen from steam methane reforming, forest pulp, logging slash, and mill waste. This type of fuel is known as eFuel. We plan to be one of the first suppliers of eFuel in North America. Provectus eFuel is 87 octane, drop-in ready, zero contaminants, zero sulfur with no blending required. Our RLCG has a Carbon Intensity score of 28 on the BC government Low Carbon Fuels Standard under the CleanBC Act. To achieve our objective, we have acquired an exclusive Canadian Development License for a unique and efficient patented process, and are working with world leading technology suppliers to develop the commercially proven technology.

Jon Jaque, President and CEO
Provectus Biofuels, Inc.
