

PROVECTUS BIOFUELS
Cleanest fuels on earth

JANUARY 25TH, 2022

FOR IMMEDIATE RELEASE:

Provectus Biofuels Inc. welcomes Robert Spencer to the Advisory Board

Prince George, BC – January 25th, 2022: Provectus Biofuels, Inc. (“Provectus”) a first-of-its-kind biomass to renewable low-carbon gasoline developer is pleased to announce the appointment of Mr. Robert Spencer to our Advisory Board.

Mr. Spencer has had an extensive career in the logging and forestry industry. With more than 26 years at West Fraser’s Quesnel, British Columbia lumber mill. Robert is a Red Seal Power Engineer managing every aspect of plant operations including kiln operations. Along with his experience in wood products and forestry management, he specializes in biomass heating, drying, and the cooking of fiber biomass.

Jon Jaque, President said, “Mr. Spencer’s expertise in every aspect of logging, including logistics, handling, and processing together with his biomass heating, drying, and cooking of fiber biomass experience, makes Mr. Spencer a great addition to the Provectus team.”

ABOUT THE COMPANY:

Provectus Biofuels Inc. is a clean energy technology company incorporated in the Province of British Columbia. Our main focus is the development of renewable low-carbon gasoline (RLCG) derived from green hydrogen from electrolysis, gray hydrogen from steam methane reforming, forest pulp, logging slash, and mill waste. This type of fuel is known as eFuel. We plan to be one of the first suppliers of eFuel in North America. Provectus eFuel is 87 octane, drop-in ready, zero contaminants, zero sulfur with no blending required. Our RLCG has a Carbon Intensity score of 28 on the BC government Low Carbon Fuels Standard under the CleanBC Act. To achieve our objective, we have acquired an exclusive Canadian Development License for a unique and efficient patented process, and are working with world leading technology suppliers to develop the commercially proven technology.

Jon Jaque, President and CEO
Provectus Biofuels, Inc.
